## OBJECTIVE

---

Mastering coding skills, gaining expertise in system design, contributing to impactful projects, advancing to leadership roles, and staying updated with emerging technologies.

## EDUCATION

---

### BSc. Information technology, Mount Kenya University

2026

Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Software Engineering, Web Development, Database Management, Operating Systems, Computer Networks, Cloud Computing, Machine Learning, Cybersecurity, Mobile App Development, System Design

## SKILLS

---

<b>Technical Skills</b>	JavaScript, TypeScript, React.js, Next.js, Node.js, Express.js, Vue.js, Quasar, MongoDB, MySQL, Prisma, Sequelize, REST APIs, GraphQL, Git, Docker, Kubernetes, AWS, Firebase, CI/CD, Agile, TDD, Jest, Cypress, WebSockets, Redis
<b>Soft Skills</b>	Problem-solving, communication, teamwork, adaptability, time management, critical thinking, leadership, creativity, attention to detail, collaboration, emotional intelligence, decision-making, conflict resolution, active listening

## EXPERIENCE

---

### Software Engineer

01/2023 - Present

Touchland Enterprises

*Remote*

## PROJECTS

---

### GastroDx

Developed a web application that assists medical professionals in diagnosing gastrointestinal disorders using AI-driven symptom analysis. The platform allows users to input symptoms, which are analyzed against a trained dataset to provide potential diagnoses and recommendations. Built with Next.js, Node.js, MongoDB, and integrated with a machine learning model for accurate predictions. ([0](#))

## EXTRA-CURRICULAR ACTIVITIES

---

## LEADERSHIP

---

- Tech Lead
- Touchland Enterprises
- Guided a team of developers in designing, building, and deploying scalable applications.
